

PTA Industry Partners - The Pennsylvania Towing Association (PTA)

Did you know the PTA is involved with many organizations in PA that provide safety and security for most people in PA? The PTA has board members who serve as representatives with these organizations here in Pennsylvania.

The PTA is involved with many government agencies working together to provide good working relationships with the general public and neighboring communities. We are all working together to provide a safe friendly working environment for all involved. The PTA is the voice of the towing industry in Pennsylvania and works very hard to maintain these relationships with our industry partners.

The Industry Partners include, but not limited to:

PennTIME – PennTIME, the Pennsylvania Traffic Incident Management Enhancement is comprised of TIM stakeholder agencies in the federal, state, local and private sector, committed to promoting the following core principals adapted from the National Unified Goal of Traffic Incident Management.

1. A focus on personal safety, as well as that of all first responders and the traveling public.
2. Clearance of roadway incidents as quickly and safely as possible.
3. The provision of prompt and reliable communications.

Attainment of these goals shall be completed by focusing on the initiatives and programs including training, technology, public education & outreach, legislative, towing and TIM task force development.

PMTA Pennsylvania Motor Truck Association – The Pennsylvania Motor Truck Association was organized in 1928. As part of a national integrated network of trucking associations and affiliates, we identify the key issues that impact the trucking industry and fight to preserve and strengthen the trucking industry and its jobs in each of the 67 counties and 2,567 municipalities in Pennsylvania, and with our elected officials in Harrisburg and Washington, D.C. We also provide an array of tangible business services to our members, delivering education and awareness programs, up-to-the-minute industry news and trends, and money saving services.

SCTF South Central Task Force - The South-Central Task Force consists of eight counties in the South-Central portion of Pennsylvania: Adams, Cumberland, Dauphin, Franklin, Lancaster, Lebanon, Perry and York. The SCTF will assume a leadership role in delivering a comprehensive and sustainable regional "all-hazards" emergency preparedness program that addresses planning, prevention, response and recovery for events in South Central PA that exceed local capabilities.

Under the supervision and direction of the Kaplan Group, Inc. http://cita.vpweb.com/about_us.html

AASP Alliance of Automotive Service Providers of Pennsylvania (AASP-PA) is a state association supporting its members across Pennsylvania. These members are collision, towing and repair shop owners, technicians, students and others associated with the industry.

Membership in AASP-PA offers a range of benefits, from health insurance to legislative representation at a state and national level. Additionally, we are affiliated with the Alliance of Automotive Service Providers (AASP), our national association. The AASP works to strengthen our industry by forging strategic alliances and monitoring federal legislation and regulations. In these footsteps, AASP-PA works to do the same for the Keystone state.

CNTA Conference of Northeastern Towing Associations the Northeast Towing Association Coalition which meets at least once a year to discuss the industries needs and concerns.

News ABC27 and Fox News43 - The PTA is recognized as the voice of the towing industry by many reporting the news in PA. We are sincerely grateful that the local news media calls on the PTA for information pertaining to our industry. In working with the media, we found that they are equally at risk when it comes to distracted drivers while reporting the news. They support the Move-Over-Law!

I-81 Corridor Coalition - The mission of the I-81 Coalition Corridor is to improve the safety and efficiency of freight and passenger movement. This will allow lives to be saved, costs to be reduced, and economic development opportunities to be expanded. These objectives will be accomplished through the sharing of information and coordinated decision making, management, and operations.

The list of industry partners goes on but we wanted to mention some organizations that we meet with on a regular basis. All of the organizations have learned that working together as one will only improve these relationships moving forward.
